m³ · m² · AMC

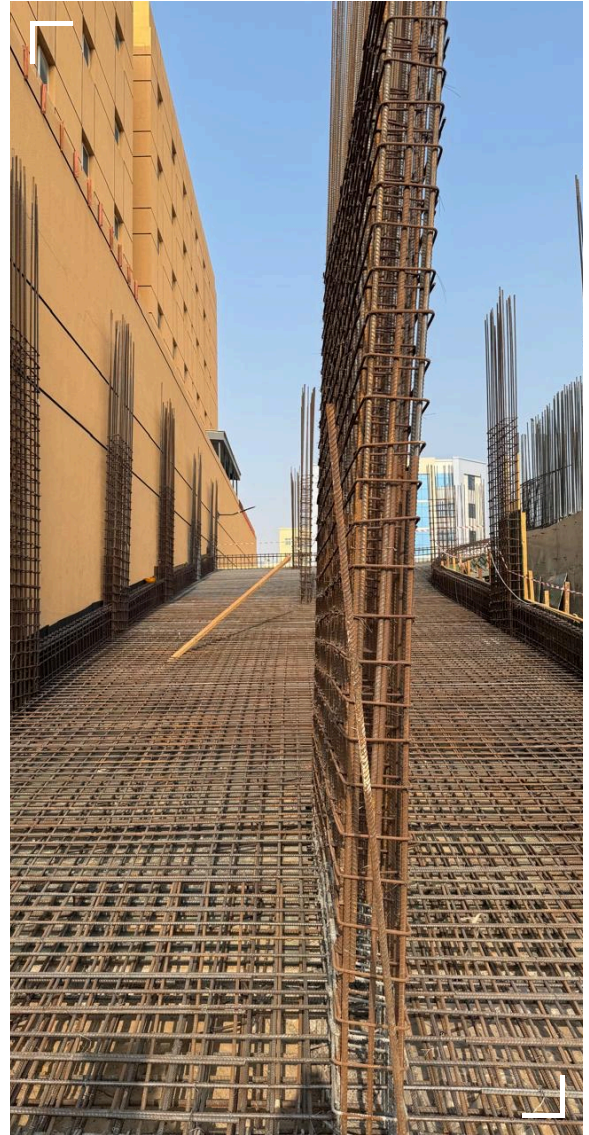

A DUBAI COMPANY FOR THE WHOLE BUILDING.

Al Wesam Al Mumayz Technical Works L.L.C is a limited liability company licensed in Dubai since 2017, with its office in Al Murar, Deira.

We work from the first pour to the finished building. On the structure we fix reinforcement to the approved shop drawings and bar bending schedules, erect and strike shuttering, place and finish concrete, install precast elements and put up the scaffolding that gives safe access.

Main contractors can award each trade separately, or take steel, shutter and concrete labour as one package priced per cubic metre, from substructure to roof. We work on villas, bungalows, residential buildings and high-rise towers.

Once the frame is up, our finishing teams carry on with plaster, painting, tiling, carpentry, wood flooring and wallpaper, and our technicians keep completed buildings running: AC, plumbing, electrical and electromechanical maintenance, on call or under an annual maintenance contract, plus post-construction and routine cleaning.

ESTABLISHED	2017, Dubai
GENERAL MANAGER	Farrag Ali Farrag Kassem Elgazzar
OFFICE	Office 103, Al Murar, Deira, Dubai · P.O. Box 3886

A WORD FROM THE OFFICE.

“Work to the drawings, keep the deck safe and clean, and have every element ready when the inspector arrives.”

Thank you for considering Al Wesam Al Mumayz Technical Works.

We were licensed in Dubai in 2017. We started with the structural frame and today cover the whole building: steel, shutters, concrete, precast and scaffolding for the structure, then finishing, cleaning and maintenance once it stands.

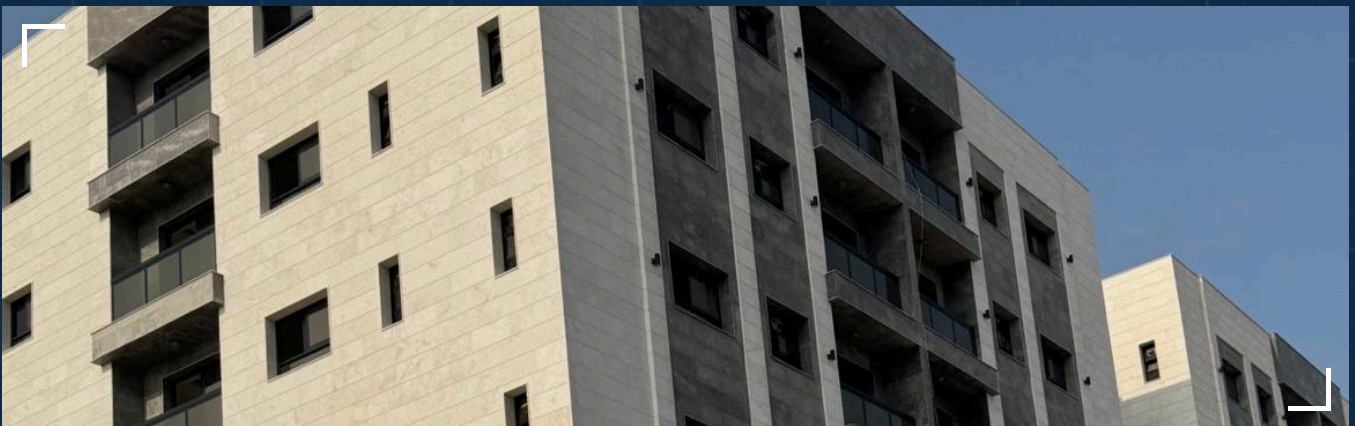

For a main contractor, our job is to make the frame predictable. That means reading the drawings before we price, raising questions early, following your programme and your site's HSE rules, and leaving each pour or finished area ready for inspection on time. For a building owner, it means repairs done right the first time and maintenance visits that happen when they are planned.

If you have a project coming up, send us the drawings or the scope. We will reply with a clear scope and a rate per cubic metre, per square metre or per visit.

Farrag Ali Farrag Kassem Elgazzar

General Manager

فراج على فراغ قاسم الجزار — المدير العام

COMPLETED

G+6 residential buildings

Al Jurf Industrial 3, Ajman

THE FRAME, FROM BLINDING TO ROOF.

Five structural trades. Each can be awarded on its own, or steel, shutter and concrete labour together as one package priced per m³.

STEEL FIXING

تركيب حديد التسليح

Cutting, bending, fixing and binding of rebar to approved shop drawings and BBS, from footings, tie beams and rafts to columns, cores, walls, beams, slabs and roof.

SHOP DRAWINGS · BBS · TIE WIRE

SHUTTERING & FORMWORK

الشدات الخشبية والمعدنية

Timber and system formwork with props for footings, columns, cores, walls, beams and slabs: erection, alignment and striking.

TIMBER · SYSTEM · PROPS

CONCRETE WORKS

أعمال الخرسانة

Placing, vibrating, levelling, finishing and curing of concrete: blinding, rafts, columns and slabs, coordinated with the ready-mix supplier and pump.

PLACE · VIBRATE · FINISH · CURE

PRECAST CONCRETE

الخرسانة سابقة الصب

Installation of precast elements: hollow-core slabs, wall panels, stairs and boundary walls, with alignment, grouting and joint sealing.

INSTALL · GROUT · SEAL

SCAFFOLDING

السقالات

Access and support scaffolding: erection, modification and dismantling, with inspection tags.

ACCESS · SUPPORT · TAGGED

STRUCTURE PACKAGE

عقد الهيكل المجمع

Steel, shutter and concrete labour as one package, priced per m³ of concrete, from substructure to roof, for villas, bungalows and towers.

ONE RATE · PER M³

THE FINISH, AND EVERYTHING AFTER.

Three trades to finish the building and look after it once it is occupied, for contractors, developers, owners and property managers.

BUILDING MAINTENANCE

صيانة المباني

CALL-OUTS · PLANNED · AMC

Repair and planned maintenance of the building services, on call or under an annual maintenance contract (AMC).

- ◆ AC & ventilation: split and ducted unit servicing, filters, coils, drain lines, fans
- ◆ Plumbing & sanitary: leaks, blockages, mixers, WCs, water heaters
- ◆ Electrical fittings: sockets, switches, lighting and fault finding
- ◆ Electromechanical equipment: pumps, exhaust fans and similar plant
- ◆ Per unit, per point, per visit, or monthly / yearly AMC

PAINTING & FINISHING

الدهانات والتشطيبات

PAINT · PLASTER · TILE · JOINERY

Finishing trades for new buildings, fit-outs and refurbishment of occupied units.

- ◆ Internal emulsion and external acrylic paint, putty and primer
- ◆ Cement plaster, internal and external
- ◆ Floor and wall tiling: ceramic and porcelain
- ◆ Carpentry, wall panelling, wood and laminate flooring
- ◆ Wallpaper and decorative engraving

BUILDING CLEANING

تنظيف المباني

HANDOVER · ROUTINE

Cleaning for handover and for buildings in use.

- ◆ Post-construction (builders') clean before handover
- ◆ Routine cleaning of lobbies, stairs and corridors
- ◆ Façade and glass cleaning
- ◆ Per m², per visit or monthly contract

TYPICAL SCOPE BY ELEMENT.

Typical work items. The exact scope for each project follows the approved drawings, the BBS and the subcontract.

ELEMENT	STEEL FIXING	SHUTTERING	CONCRETE
Footings & tie beams	Bottom and top mats, links, column starters and dowels, chairs and cover blocks.	Side shutters set to line and level, braced, struck after the pour.	Blinding; placing and vibrating to top of concrete; curing.
Raft foundations	Two-layer mesh, chairs, additional bars, wall, column and core starters, edge bars.	Edge shuttering and stop-ends at construction joints.	Continuous pour by pump, vibrated in layers, levelled and cured.
Columns, walls & cores	Vertical bars with laps or couplers, links and ties, trimming bars at openings.	Column boxes and wall panels with ties, props, plumb checks and access platforms.	Placing in lifts with vibrators; curing after striking.
Beams & slabs	Bottom and top bars, stirrups, trimming bars, mesh and chairs.	Soffit and beam-side shuttering on props or scaffold, edge forms.	Placing from pump, vibrating, screeding, power-float or broom finish, curing.
Parapets, stairs & upstands	Starter, vertical and horizontal bars, links.	Side shutters, stair soffits and risers, kickers.	Placing, vibrating, finishing of tops and treads, curing.
Precast & scaffolding	Precast: lifting, placing and levelling hollow-core slabs, wall panels, stairs and boundary walls; grouting of joints and keyways; joint sealing. Scaffolding: birdcage support for slab soffits, access scaffolding for walls and façades, edge platforms; erected, tagged, inspected and dismantled.		

m³

ONE RATE

A single rate per cubic metre of concrete covers steel fixing, shuttering and concrete labour for the element, or any one of them.

MEASURED

The volume is taken from the approved drawings, or as poured, whichever basis is agreed in the subcontract.

OTHER UNITS

Steel per tonne, shutters per m², precast per unit, m² or metre of joint, scaffolding per m², m³ or day.

Rates, the measurement basis, the scope of supply (labour only, or labour with consumables) and the payment terms are agreed for each project.

TYPICAL SCOPE BY ACTIVITY.

Finishing and cleaning are measured by area; maintenance by unit, point or visit, or as a fixed annual contract.

ACTIVITY	TYPICAL SCOPE	UNIT
Internal painting	Surface preparation, putty, one coat primer and two coats emulsion; repainting of occupied units.	m ²
External painting	Façade acrylic paint, primer and two finish coats, from scaffold or access equipment.	m ²
Plaster	Cement plaster to internal walls and, in two coats, to external walls, with beads and mesh.	m ²
Tiling	Ceramic and porcelain floor and wall tiling on screed or plaster, with grouting.	m ²
Carpentry & wood flooring	Wall panelling and cladding, wood and laminate flooring with underlay and skirting.	m ² · nos
Wallpaper & engraving	Wallpaper with surface preparation; decorative engraving and textured feature walls.	m ²
AC & ventilation	Servicing of split and ducted units: filters, coils, drain lines, gas check, fans.	per unit
Plumbing & sanitary	Call-outs for leaks and blockages; replacement of mixers, WCs, basins and water heaters.	per visit · nos
Electrical	Fault finding; repair or replacement of switches, sockets and light fittings.	per point · visit
Electromechanical	Maintenance of pumps, exhaust fans, water heaters and similar equipment.	lump sum
Annual maintenance contract	Planned preventive visits to an agreed schedule, plus call-outs; spare parts at cost.	per month · per year
Building cleaning	Post-construction clean before handover; routine cleaning of common areas; façade and glass.	m ² · visit · month

m²
AMC

MEASURED

Finishing works are measured jointly by area completed and approved.

JOB SHEETS

Every maintenance visit is recorded on a job sheet signed by the occupant or facility manager.

PLANNED

Under an AMC, preventive visits follow an agreed yearly schedule, with call-outs on top.

FROM DRAWINGS TO HANDOVER.

1

REVIEW THE SCOPE

We read the drawings, BBS and finishes schedule, or visit the building, and we raise queries before we price.

2

QUOTE BY THE RIGHT UNIT

You receive a clear scope with rates per m³ for structure, per m² for finishing, and per visit or AMC for maintenance.

3

MOBILISE THE CREW

Steel fixers, carpenters, masons, painters or technicians start on your programme. They complete site induction and work to the site HSE plan.

4

BUILD, INSPECT, SIGN OFF

We check our own work and offer each element or area for inspection before the pour or the next coat.

5

HAND OVER, THEN MAINTAIN

We clean and hand over, and we stay on call, with planned maintenance under an AMC where the owner needs it.

SEND THE SCOPE. GET A RATE.

+971 50 657 5959 · info@wmumyaz.com

CHECKED BEFORE EVERY HANDOVER.

What a main contractor or building owner can expect from our teams.

✓ DRAWINGS FIRST We work only to approved drawings, shop drawings, BBS and finishes schedules. Queries go to the engineer before work starts.	✓ COVER & SPACING We check bar sizes, spacing, laps, cover blocks and chairs as we fix, so the element is ready for inspection.
✓ TRUE SHUTTERS We check shutter line, level and plumb, bracing and props before the pour, and strike only when the site allows.	✓ PLACED & CURED We place and vibrate concrete in layers, protect fresh surfaces and cure them as specified.
✓ FINISHES INSPECTED Each area is checked for line, level and finish before the next coat or the next trade starts.	✓ TESTED AFTER REPAIR After a maintenance repair we test the AC, water or power circuit with the occupant before the job sheet is signed.
✓ PPE & SITE RULES Our teams wear the required PPE and follow the main contractor's HSE plan, or the permit-to-work rules of occupied buildings.	✓ SAFE ACCESS, CLEAN AREAS We erect, tag and inspect scaffolding, guard open edges, and clear off-cuts, debris and paint waste as we go.

These are our working practices on site. This profile makes no claim to third-party certification. Method statements and risk assessments are prepared per project as the main contractor or client requires.
